

YOURS MINE OURS

Not blended families; but records

YOURS looks at the way GENEALOGY used to be done – back in the long ago days of our ancestors, writing off for things; tip-toeing around archives and libraries and squirreling away their precious finds.

MINE looks at how we acquire GENEALOGY information today and how we keep our information.

OURS looks at how we share GENEALOGY information, mostly on-line and what is good, better or best.
